

Accessing the website

The very first time you go to cobhambowlingclub.co.uk site, you should (have) seen at the top of the screen a statement about cookies, and whether you agree to them. Click Agree. If you don't / didn't you may find that you are unable to log-in. If this is the case, go to the website Members Area (see picture below), Website Assistance page to fix it.

Enter the site name cobhambowlingclub.co.uk into the top bar i.e. not putting it into a search engine like Google:

Hit the return / enter key and it will take you to the website homepage:

Go the Members Area page (click on top right):

Enter the email address that you registered with the club when you joined, and your password, then hit "log in" (bottom right).

This should take you to a "welcome" landing page. From here - explore! I suggest going to Members Information and also the Fixtures / Results page where additional information compared to public access is available.

If however it is your first time of entry, it may take you to another page asking that you enter / change your details.

If you change your password, please bear in mind that it must have a minimum of:

- 5 characters,
- 3 integers (numbers),
- 1 symbol (e.g. *),
- 1 upper case character (e.g. a capital letter).

There is also "Captcha" which is a security layer to stop robots accessing all areas. It can be ambiguous to understand the requirement, but do please persevere.

You then go through the login with your new password, and you should be in.
