

Unable to log in

If when you try to log in to the members area, your PC / Tablet / Laptop just resets the page back to the log in, it is a Cookie problem.

Solution! If you go to the website (no need to log in) then About Us and Useful links (<http://www.cobhambowlingclub.co.uk/index.php/about-us/useful-links>), on the left side top is a box re cookies. Click "Remove" then accept the "are you sure" query (if you get one). Then click "reconsider cookies". You should see the banner appear at the top of the page re accepting cookies – agree to it, and there you are: access log in now OK into the members access.
