

Forgotten Password

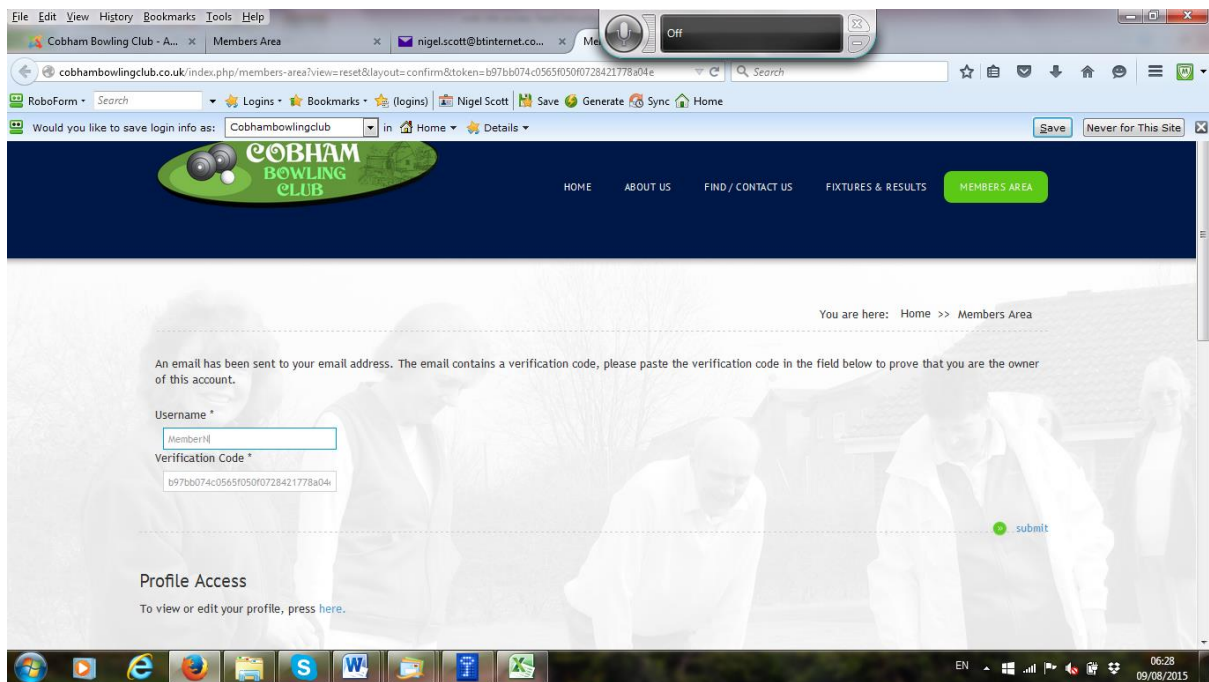

If you can't remember your password, Go the Members Area page and click on "forgotten password":

Enter you email address (that you use with Bows / this site) and the text in the Capcha picture. If you can't decipher it, get another one. (This feature is to stop "robots" applying):

You will receive an email that contains a verification code, just click on the link and the code autofills on the webpage :

Enter your Username and click “submit”.

You then have to put in a new password, and repeat it (confirm).

NB Passwords must have (at time of writing) a minimum of:

- 5 characters,
- 3 integers (numbers),
- 1 symbol (e.g. *),
- 1 upper case character (e.g. a capital letter).

You then go through the login with your new password, and you should be in.
